scabs

Scabs feel bumpy and rough and look brown.

They can be found on leaves, stems and fruit.

spots

Spots can be different colours and sizes.

They normally occur on leaves.

rots

Rots can turn the fruits and stem soft and mushy.

They can be different colours.

Rots can smell bad.

discoloured leaves

In some sick plants, the leaves change colour from green to yellow or brown.

curled leaves

In some sick plants,
the leaves can curl
up.

cankers

Cankers are dark spots that appear on the bark of trees

The cankers sometimes split open and sap oozes out.
